## **Audit Services**

In the business world, the *accuracy* and *credibility* of financial information are paramount. At BBA, we not only ensure that companies' internal controls are robust and effective but also that management strategies are aligned with business risks. This commitment allows us to provide our clients with certainty, enhancing *transparency* and strengthening *corporate trust*.

Our Audit division stands out for its unique approach, combining *quality* and *precision* – the pillars that have defined our practice for more than two decades. We adhere to principles of *integrity*, *methodological excellence*, and *complete independence* in our professional judgment, enabling us to deliver not just results but also *strategic value* and recommendations that foster *continuous improvement*.

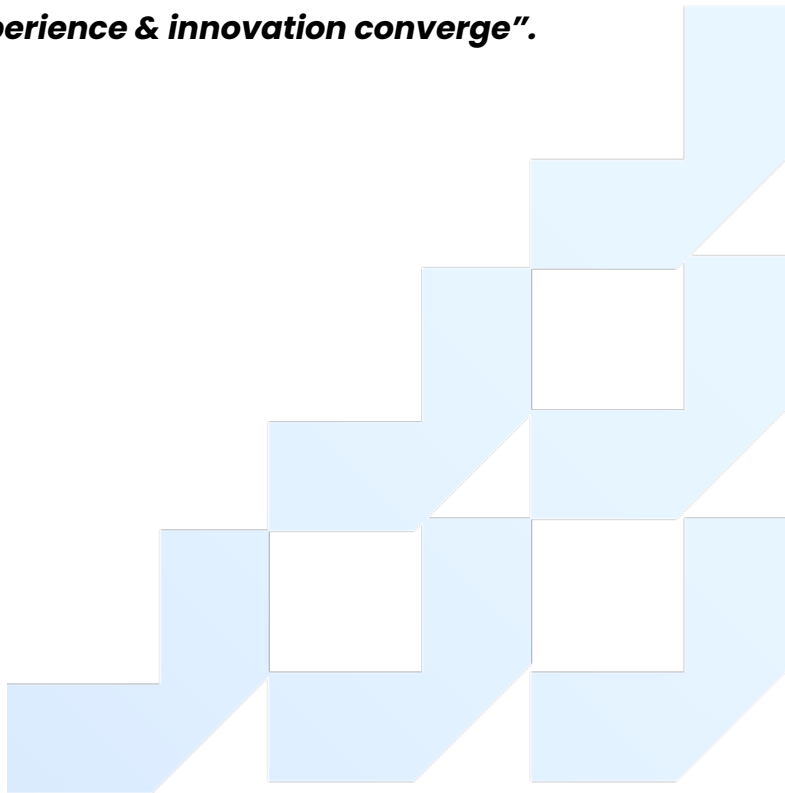

### **Our services include:**

- Audit of Financial Statements for financial, tax, and legal purposes.
- Financial Statement Conversion.
- Implementation of Specific Financial Reporting Standards (D3, D4, C15, among others).
- Implementation of IFRS (International Financial Reporting Standards).
- Statutory Auditor Reports.
- Evaluation and Strengthening of Internal Controls.
- Optimization of Methods and Procedures.
- Implementation of Quality Processes in accordance with ISAs (International Standards on Auditing).
